

Erasmus for Young Entrepreneurs

New Entrepreneur

Name : Urszula Przybylska
Country: Poland
Age:28
Status: Would-be entrepreneur
Sector: Computer Games

« I always have a lot of ideas, but a hard time putting them to life. I am interested in film, interactive storytelling, game development and alternative realities. I was very excited when I discovered Trotzkind and got to know that the people working there have not only the same interests, but also turned them into their job. EYE gave me a chance to have a close look at how it works in reality.

It was an amazing inspiration to keep following my dreams! I believe I was also a new, inspirational eye for Sven and that we will keep cooperating in the future. We collaborated on the whole project together – a new VR exit game called “Huxley 2”. Beginning from script and grant writing, project management, testing possible technical solutions, through finalization.

We encountered many problems but solved them together.

The whole journey was truly exciting! I learned a lot in a short period of time. I saw that putting dreams into beneficial work can be fruitful! I am sure that we will keep inspiring ourselves in the future. I saw also the technical side of realizing dreams and believed that everything is possible.

The Erasmus for Young Entrepreneurs Program is a good way to meet European entrepreneurs in a helpful environment. It shows that collaboration is the key to a strong and peaceful Europe. »

Host Entrepreneur

Name: Sven Haeberlein
Country: Germany
Age: 6 years
Status: VR software
Sector: <http://trotzkind.com/>

Urszula Przybylska
